BIOMETRICS

Editor

Foster B. Cady

Associate Editors

David M. Allen
Richard G. Cornell
Joseph I. Fleiss
John J. Gart
William G. Hill
Klaus Hinkelmann
Oscar Kempthorne
Gary G. Koch
Lynn R. LaMotte
C. A. McGilchrist
Carl M. Metzler
Tadakazu Okuno
H. D. Patterson
John O. Rawlings
Arthur A. Rayner
Daniel L. Solomon
William G. Warren
Wilfred J. Westlake

Business Manager

Larry A. Nelson

Editor for Shorter Communication

J. S. Williams

Book Review Editor

R. M. Cormack

Editorial Assistant

Norma E. Phalen

Subject Index

Miles Davis

French Translators

Dr. R. Tomassone and members of the French section of the Biometric Society

Editorial Board

H. A. David (Chairman), L. C. A. Corsten, P. Dagnelie, G. G. Duarte, F. A. Graybill, I. Juvancz, E. Marubini, S. R. Searle, M. Tarter, R. Tomassone, E. J. Williams, M. E. Wise

Former Editors

Gertrude M. Cox (1945–55)—*Founding Editor*
John W. Hopkins (1955–7)
Ralph A. Bradley (1957–62)
Michael R. Sampford (1962–7)
Herbert A. David (1967–72)
Franklin A. Graybill (1972–5)

Pulblished quarterly by the BIOMETRIC SOCIETY

EDITORIAL OFFICE OF *BIOMETRICS:* Correspondence about editorial matters should be sent to the Editor Foster B. Cady, Biometrics Unit, 337 Warren Hall, Cornell University, Ithaca, New York 14853, U.S.A.

BUSINESS OFFICE: All correspondence about subscriptions, single copies, changes of address, claims for missing issues, and membership should be sent to the Biometrics Business Office, 806 15th Street NW, Suite 621, Washington, D.C. 20005, U.S.A. Members of the Biometric Society should also advise their respective Regional or National Secretaries (for addresses, see page ix) of changes of address to insure receipt of notices of meetings, ballots, and all dues notices.

Second-class postage paid at Washington, D.C. and at additional mailing offices. *Biometrics* is published quarterly—in March, June, September, and December.

OFFICERS OF THE BIOMETRIC SOCIETY, 1978

GENERAL OFFICERS

President:	J. A. Nelder
Vice President:	H. L. LeRoy
Secretary:	J. S. Williams
Treasurer:	L. A. Nelson
Editor:	F. B. Cady

COUNCIL

1976-1979

P. Berthet, *RBE*
R. McCormack, *BR*
L. C. A. Corsten, *A. Ned.*
R. N. Curnow, *BR*
G. G. Duarte, *RBras*
O. J. Dunn, *WNAR*
C. W. Dunnett, *ENAR*
E. A. Gehan, *ENAR*
M. Iosifescu, *GRo*
C. C. Kemp, *BR*
J. M. Legay, *RF*
C. A. McGilchrist, *AR*

CONTENTS OF VOLUME 34

PART 1 (March 1978)

Logical, epistemological and statistical aspects of nature-nurture data interpretation ..... O. Kempthorne 1
A comparison of three measures of species diversity ..... R. A. Kempton and R. W. M. Wedderburn 25
Comparative calibration, linear structural relationships and congeneric measurements ..... C. M. Theobald and J. R. Mallinson 39
The efficiency of experimental designs for the detection of linkage between a marker locus and a locus affecting a quantitative trait in segregating populations ..... M. Soller and A. Genizi 47
Regression analysis of grouped survival data with application to breast cancer data ..... R. L. Prentice and L. A. Gloeckler 57
The use of a correlated binomial model for the analysis of certain toxicological experiments ..... L. L. Kupper and J. K. Haseman 69
The estimation of false negatives in medical screening ..... J. D. Goldberg and J. T. Wittes 77
Shorter Communications
On an estimation problem in Warner's randomized response technique ..... D. Raghavarao 87
On the analysis of variance of a half diallel table ..... D. E. Walters and J. R. Morton 91
Estimation of the parameters of the Thomas distribution ..... K. G. Russell 95
Are there two logistic regressions for retrospective studies? ..... N. Breslow and W. Powers 100
Exact samples sizes for use with the Fisher-Irwin Test for 2 × 2 tables ..... J. K. Haseman 106
The Consultant's Forum
A graphical aid for determining sample size when comparing two independent proportions ..... P. Feigl 111
A genetic model involving fetal effects on traits of the dam ..... L. D. Van Vleck 123
Query: Testing the effect of an intervention in sequential ecological data ..... T. R. Turk 128
Responses ..... S. Zahl; G. van Belle and T. Zeisig 130
Query: Expressing the mean of rounded data
Response ..... A. B. Forsythe 138
Query: On the estimation of season total number of different households utilizing a park
Response ..... W. A. Fuller and J. J. Goebel 139
Correspondence 142
Obituary: Prof. Dr. Ing. Václav Myslivec 145
Book Reviews 147
Abstracts 149
The Biometric Society 174
News and Announcements 175
Papers to be published in *Biometrics* 177

PART 2 (June 1978)

Weighted distributions and size biased sampling with application to wildlife populations and human families ..... G. P. Patil and C. R. Rao 179
The behaviour of estimators of the parameters of various yield-density relationships ..... P. R. Gillis and D. A. Ratkowsky 191
Simultaneous estimation of variance and covariance components from multitrait mixed model equations ..... L. R. Schaeffer, J. W. Wilton and R. Thompson 199
Efficient analysis of Weibull survival data from experiments on heterogeneous patient populations ..... J. S. Williams 209
A model for analysis of the anesthetic response ..... R. C. Bailey, J. P. Summe, L. D. Homer and L. E. McCracken 223
A simple 'synthesis'-based method of variance component estimation ..... H. O. Hartley, J. N. K. Rao and L. R. LaMotte 233
A nonparametric test for association with censored data ..... P. C. O'Brien 243
On the detection of an additive blending component in multicomponent mixtures ..... J. A. Cornell and J. W. Gorman 251
Estimation of the mixing proportion in a mixture of two normal distributions from simple, rapid measurements ..... I. R. James 265
Shorter Communications
Clarification and appropriate inferences for Mantel and Valand's nonparametric multivariate analysis technique ..... P. W. Mielke 277
Maximum entropy constrained balance randomization for clinical trials ..... J. H. Klotz 283
A language for computer generation of medical data forms ..... J. A. Hanley 288
The Consultant's Forum
A consulting aid to sample design ..... B. L. Ford and R. D. Tortora 299
An application of multivariate ratio methods for the analysis of a longitudinal clinical trial with missing data ..... W. M. Stanish, D. B. Gillings and G. G. Koch 305
Efficient screening of non-normal regression models ..... J. F. Lawless and K. Singhal 318

Corrections 328
Book Reviews 331
Abstracts 335
The Biometric Society 337
News and Announcements 338
Papers to be published in *Biometrics* 340

PART 3 (September 1978)

Size and shape analysis of schistosome egg-counts in Egyptian autopsy data ..... J. E. Mosimann, J. D. Malley, A. W. Cheever and C. B. Clark 341
Application of the four-parameter logistic model to bioassay: Comparison with slope ratio and parallel line models ..... A. Vølund 357
A likelihood ratio statistic for testing goodness of fit with randomly censored data ..... B. W. Turnbull and L. Weiss 367
A compartment model approach to the estimation of tumor incidence and growth: Investigation of a model of cancer latency ..... H. D. Tolley, D. Burdick, K. G. Manton and E. Stallard 377
Comparison of two regression lines over a finite interval ..... R. K. Tsutakawa and J. E. Hewett 391
A method for plotting the optimum positions of an array of cortical electrical phosphenes ..... B. S. Everitt and D. N. Rushton 399
A statistical procedure useful in evaluating time of onset and termination of response in clinical trials ..... R. T. O'Neill and C. W. Chen 411
Analysis of Poisson data in crossover experimental designs ..... M. W. J. Layard and J. N. Arvesen 421
Probabilities of non-positive definite between-group or genetic covariance matrices ..... W. G. Hill and R. Thompson 429
Alternative representations and procedures for the two-way mixed model ..... D. A. Harville 441
Shorter Communications
Ascertainment models for human families selected through several affected children ..... J. Stene 455
Circular triads when not all paired comparisons are made ..... D. F. Bauer 458
Variance-covariance matrix of estimators of variances in unweighted means ANOVA ..... C. R. Henderson 462
Obtaining confidence intervals for the risk ratio in cohort studies ..... D. Katz, J. Baptista, S. P. Azen and M. C. Pike 469
A family of density estimators for line-transect sampling ..... K. H. Pollock 475
Variance components and disconnected data ..... J. A. Eccleston 479
An improved approximate formula for calculating sample sizes for comparing two binomial distributions ..... J. T. Casagrande, M. C. Pike and P. G. Smith 483
The Consultant's Forum
A flexible strategy for fitting complex log-linear models ..... J. Whittaker and M. Aitkin 487
Comparison of linear trends in binomial proportions ..... C. L. Wood 496
Removing nonadditivity from two-way tables with one observation per cell ..... N. A. C. Cressie 505
Query: An affine linear model for the relation between two sets of frequency counts ..... J. E. Cohen and P. D'Eustachio; W. A. Fuller 514
Correspondence 522
Book Reviews 525
Abstracts 529
The Biometric Society 537
News and Announcements 538
Papers to be published in *Biometrics* 540

PART 4 (December 1978)

The analysis of failure times in the presence of competing risks ..... R. L. Prentice, J. D. Kalbfleisch, A. V. Peterson, Jr., N. Flournoy, T. T. Farewell and N. E. Breslow 541
Exploratory analysis of disease prevalence data from survival/sacrifice experiments ..... B. W. Turnbull and T. J. Mitchell 555
An analysis for transient states with application to tumor shrinkage ..... N. R. Temkin 571
A linear models application of competing risks to multiple causes of death ..... H. D. Tolley, K. G. Manton and S. S. Poss 581
Measures of association between disease and genotype ..... P. K. Norwood and K. Hinkelmann 593
Selection within self-fertilizing populations ..... R. N. Curnow 603
A semi-Markovian model for predator-prey interactions ..... C. R. Rao and A. M. Kshirsagar 611
A new method for estimating population size from removal data ..... F. L. Carle and M. R. Strub 621
Estimation in modified and compound modified discrete distributions ..... W. O. Williford and A. L. Price 631
An analysis of a series of long-term grassland experiments with autocorrelated errors ..... H. Björnsson 645

Shorter Communications
A stochastic model for cell survival after irradiation ..... B. N. L. Bansal and P. C. Gupta 653
An exact confidence region for a relative potency estimated from combined bioassays ..... D. A. Williams 659
The effect of accessing medical records by date of death on estimates of survival ..... G. M. Tallis, P. Leppard and G. Sarfaty 662
Consultant's Forum
The analysis of pair-matched case-control studies, a multivariate approach ..... T. R. Holford 665
A survival model for a wood preservative trial ..... N. R. Bartlett 673
Strategies for the selection of log-linear models ..... J. K. Benedetti and M. B. Brown 680
Should there be statistical guidelines for medical research papers? ..... J. R. O'Fallon, S. D. Dubey, D. S. Salsburg, J. H. Edmonson, A. Soffer and T. Colton 687
Linear models in messy data: some problems and alternatives ..... N. S. Urquhart and D. L. Weeks 696
Reader Reaction ..... D. J. Finney: M. J. R. Healy 706
